NOTE: **Ex Parte Communications are prohibited on Agenda Items 1386 and 1394 from the day of the Ratesetting Deliberative Meeting through the conclusion of the Business Meeting at which a vote on the Proposed Decisions is scheduled. (Rule 7(c)(4)).**

1386 A00-11-038 - Southern California Edison Company (SCE).
Application of SCE for authority to institute a Rate Stabilization Plan with a rate increase and end of rate freeze tariffs. A00-11-056, A00-10-028 – Related Matters. This decision allocates the cost of the California Department of Water Resources' (DWR's) revenue requirement for its 2003 power purchase program among Pacific Gas and Electric Company, SCE and San Diego Gas & Electric Company. The Commission adopts the allocation methodology proposed by the Office of Ratepayer Advocates, with certain modification. In essence, the adopted methodology pools the total costs of DWR's contracts and allocates these costs among the utilities on the basis of the quantity of the energy supplied to each utility from the contracts.

1394 A00-11-038 - ALTERNATE ORDER TO ITEM 1386.
This alternate decision differs from the proposed decision of the administrative law judge in that it removes \$29 million from the revenue requirement proposed by the Department of Water Resources relating to demand reduction programs.
